**InnoTech of Wauwatosa Celebrates its 10<sup>th</sup> Anniversary in Business.**

Wauwatosa, WI, March 17, 2009 – InnoTech of Wauwatosa is marking its tenth year in business this year. InnoTech was founded in February 1999 by Jim Schram with the idea of providing technology services with passion, integrity and innovation.

Over the years, InnoTech has completed many successful custom software projects with clients in the following industries: mortgage, custom wood-working, consumer products, manufacturing, municipal government and non-profits to name a few. There has been one common thread among all the projects: Excellent Customer Service. InnoTech clients repeatedly choose Innotech for their projects because:

- InnoTech “knows how to gather requirements, develop estimates, and deliver results that are professional and holds up over time.”
- “Reliability – InnoTech understands what we want, from our perspective.”
- Within the IT industry it is “typically difficult to get a response to questions... InnoTech however has responded within a reasonable time each time.”
- “Professionalism, responsiveness, collaboration.”

**About InnoTech:** InnoTech is a premier Internet Software Solutions Provider offering software solutions to organizations throughout South-East Wisconsin. Projects range from brochure style websites to e-commerce to full-featured web applications and more. InnoTech delivers every solution with passion, integrity and innovation.
